

Appendix B.

Recommendations for those officers whose services it is considered deserve a "Mention in Despatches" (These recommendations are arranged in order of priority.)

R.A.F. PRISONERS OF WAR IN GERMANY

STALAG LUFT III

The following list of officers from STALAG LUFT III are recommended for a "mention in despatches" on account of their continuous and persistent attempts at escape and also for the valuable assistance which they rendered to other escapers in the camp. Their example was a source of inspiration to their fellow prisoners and largely to their efforts can be attributed the high morale of all ranks at STALAG LUFT III. Their efforts materially assisted the S.B.O. in running the camp successfully, and they were a continual thorn in the side of the German Camp Staff.
